Secure Check Catalog

UNCOMPROMISED® CHECK SOLUTIONS

SECURITY ★ DELIVERY ★ VALUE

Uncompromised Check Solutions is a state of the art product offering of secure, software compatible, standard and custom laser checks and accessories.

Standard formats are organized in three tiers that include varying levels of paper and printed security features. From the very small business to the large corporation, Uncompromised Checks meet the needs of every customer and ensure solutions for all check requirements.

Security

Fraud prevention is the foundation and core of our check offering. A wide range of security options are available. All Uncompromised Checks easily surpass ordinary care standards as defined in the Uniform Commercial Code and have been tested and determined in compliance with Check 21 and ANSI X9.7. For a complete list of available security features in each tier you may reference our Security Features Grid.

Delivery

Streamlined manufacturing and expertise result in unbeatable delivery. Standard checks ship in three work days and our top tier, Uncompromised Premier, ship in 24 hours! Custom and long run blank checks ship in seven work days or less!

Value

Uncompromised Checks offer great value in print quality, fast delivery and fraud protection. Security features are of no use if they are not obvious. Our check designs ensure security features are easily recognized by check verifiers.

Uncompromised Check Solutions Standard Check Tiers

Tier #1: Uncompromised Checks

The Uncompromised Check tier is an economical option that provides well above the minimum eight security features needed to qualify as "high security checks." Customers who use Uncompromised Checks greatly reduce their liability in check fraud loss.

Uncompromised Checks have a uniquely designed check background available in nine background colors. The face of the check contains a heat reactive, Thermochromic Icon and the back contains a Chemical Wash Warning box. These features can make tampering very obvious to the check verifier and effectively prevent loss. Refer to page 3 for details about these features. Refer to pages 10-11 for more on this tier.

Tier #2: Uncompromised Plus

Uncompromised Plus takes check security to the next level! In addition to the features available in the Uncompromised tier, Uncompromised Plus includes an invisible fluorescent logo printed in the signature area of the check. This feature serves as an effective authentication tool. See page 3 for details. The Plus Check background is unique in design, difficult to copy and available in four background colors. Refer to pages 8-9 for more on this tier.

Tier #3: Uncompromised Premier Checks

Uncompromised Premier is the most robust level in our standard check offering. The Premier line includes three layers of check security options; Granite/Parchment/Linen, 3D/Financial Secure and our top of the line offering; Hologram Secure.

Granite/Parchment/Linen Checks

Unique check backgrounds enhance image as well as provide security. Three distinctive textures, Granite, Parchment and Linen are available in a wide variety of background colors. These backgrounds are difficult to duplicate and the warning bands alert the handler that the check contains security features. Granite, Parchment and Linen Checks are printed on laser compatible paper and feature Toner Adhesion and an Artificial Watermark. Toner adhesion is a chemical coating that prevents the lifting or alteration of printed information on checks; a common method of check fraud. An artificial watermark is an economical alternative to the True Fourdrinier Watermark. These marks can be viewed at a 45 degree angle but cannot be captured by copiers or scanners which reads marks at a 90 degree angle.

As with the Plus tier, G/P/L Checks also have an invisible fluorescent logo that appears in the signature area of the check, an effective tool used for authentication. See page 3 for details about this feature.

3D/Financial Secure Checks

Prismatic backgrounds present a significant challenge for counterfeiters to successfully duplicate. 3D Secure Checks offer two choices of prismatic colors; Burgundy-Gray-Green and Blue-Rose-Yellow. In addition, 3D Secure prismatic backgrounds include a three dimensional image of the word Secure. 3D Secure check stock is not sold blank, further protecting you from counterfeiters.

Financial Secure offers a choice of two prismatic backgrounds, Blue-Red-Blue or Green-Tan-Green. Both 3D and Financial Secure Checks are printed on the finest security paper available and include a True Fourdrinier Watermark and Toner Adhesion.

Hologram Secure Checks

Hologram Secure Checks are the premier choice to prevent forgery. A hologram is a three dimensional metallic image fused to the sheet and is considered one of the most unique and effective deterrents to forgery. Holograms are commonly referred to as an excellent but expensive defense against counterfeiting. Uncompromised Check Solutions provide this high end security option at an economical price.

Hologram Secure Checks are printed on the finest security paper available and include a True Fourdrinier Watermark and Toner Adhesion. Hologram Secure check stock is not sold blank, further protecting you from counterfeiters. Refer to page 6 for more on this tier.

Security Feature Highlights

1. Thermochromic Keyhole Icon

All Uncompromised Checks feature a keyhole icon printed in red thermochromic ink on the front of the check. Thermochromic inks react to changes in temperature. If you touch or blow on the icon it will disappear. The icon will reappear after it cools. The thermochromic ink's reaction to temperature changes cannot be replicated on a color copier or laser printers, making this security feature an excellent deterrent to forgery.

2. Invisible Fluorescent Logo

The Uncompromised Logo is printed in an invisible fluorescent ink in the signature area of the Plus tier and the Premier tier (at the Granite/ Parchment/Linen level). It can only be seen when viewed with a black light and serves as a very useful tool to authenticate a check. This mark is highly difficult to reproduce and is called out in the warning band discouraging the counterfeiter to attempt copying the check.

3. Chemical Wash Warning Box

Uncompromised Checks that are printed on chemically reactive paper have a Chemical Wash Warning Box on the backer. The warning box calls the attention of the check verifier to the color of the check paper. Any discoloration within the box may indicate the check has been tampered with and should stop the verifier from processing the check.

Numbering/Packaging for all Tiers:

Use the following guide to determine check numbering:

Option A
Face Up Low Number

Option B
Face Down Low Number

Option C
Face Up High Number

Option D
Face Down High Number

Standard Ascending printer pulls from the top, face up in tray, lowest number on top.

Reverse Ascending printer pulls from the top, face down in tray, lowest number on top.

Standard Descending printer pulls from bottom, face up in tray, highest number on top.

Reverse Descending printer pulls from bottom, face down in tray, highest number on top.

Please indicate on your order which numbering option (A, B, C or D) fits your laser printer.

Available Base Stock Designs and Colors

Hologram Secure

A Hologram is a three dimensional metallic image fused to the sheet. Holograms are one of the most unique and effective deterrents to forgery. The advanced optical technologies used have two main advantages: they are instantly recognizable to the naked eye and uniquely resistant to counterfeiting. Hologram Secure Checks are the premier choice when trying to protect official documents from forgery.

| Blue | Burgundy | Green | Gray | Tan | Teal |

3D Secure

3D Secure Checks are prismatic checks with the word Secure in the background making the check design extremely difficult to duplicate. The two choices of prismatic colors are Burgundy-Gray-Green and Blue-Rose-Yellow. The word Secure appears three dimensionally in the body of the check.

| Burgundy | Gray | Green | | Blue | Rose | Yellow |

Financial Secure

Financial Secure Checks offer you a choice of two prismatic backgrounds, Blue-Red-Blue or Green-Tan-Green.

| Blue | Red | Blue | | Green | Tan | Green |

Hologram Secure, 3D Secure and Financial Secure Checks are printed on the finest security paper available and include a True Fourdrinier Watermark and Toner Adhesion, one of the most effective fraud protection options available. Protect your business by choosing from one of our Premier security designs.

Blank stock not available in Hologram or 3D Secure.

Unique check backgrounds can enhance your business image as well as provide security. These backgrounds are difficult to duplicate and the warning bands alert the handler that the check contains security features. Choose from a variety of colors in three distinctive textures.

Granite, Parchment and Linen Checks are printed on MICR-OCR Laser compatible paper, which includes multiple security features such as Toner Adhesion and an Artificial Watermark.

Copy Instructions

The camera-ready art submitted must be a clean, sharp, exact size black and white original print. Fine lines, screens and heavy solids do not reproduce well. All art is subject to factory approval. Please submit a printed sample or layout indicating copy position.

Check Instructions

Checks feature consecutive numbering at no additional charge and are guaranteed to have no missing numbers. MICR numbering is printed in black magnetic ink.

Check orders must be accompanied by a voided check sample or a MICR specification sheet. Deposit tickets are not accepted for check MICR specifications.

Special Options – No Charge

- Customer logo, no composition. Must be camera ready.
- Proof – new order only
- Extra signature line
- Name over signature line

Special Options - Chargeable

- Phantom – customer art or stock logo – new order only. Check with plant for art information.
- Heavy composition
- Additional proofs – customer changes or proofs on repeats.
- Each new or additional perforation

Available Typestyles

Please specify typestyle by ID code. If no typestyle is specified, we will use TB2, Helvetica Bold. All additional lines will be TB1, Helvetica, unless noted otherwise.

Color Options[SM]

Create a customized look for your Laser or Continuous Checks with one of the options listed below.
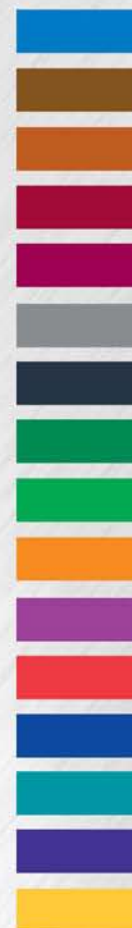

Option 1:

If you use laser or continuous checks and would like to add some color, consider having your company and bank information printed in one of our 16 ink colors. An additional charge applies, ask for details. Black ink is standard.

Option 2:

Create a custom look by choosing a special ink or match an ink on an existing form or letterhead. An additional charge applies, ask for details.

Standard Ink Colors

- PMS-300 Blue
- PMS-464 Brown
- PMS-471 Brown
- PMS-201 Burgundy
- PMS-221 Burgundy
- PMS-423 Gray
- PMS-432 Gray
- PMS-348 Green
- PMS-355 Green
- PMS-151 Orange
- PMS-Purple
- PMS-185 Red
- PMS-Reflex Blue
- PMS-321 Teal
- PMS-Violet
- PMS-123 Yellow

Laser Check Order Quantities

250, 500, 1000, 2000, 3000 and 5000

Blank stock available in all colors and check positions. See price guide for prices. Wallet checks are not available in Plus or Premier.

Custom Check Security

Uncompromised Check Solutions is authorized by the Check Payment Systems Association to illustrate their registered certification mark; the padlock icon. The padlock icon provides an indication to all parties accepting checks that additional security features have been incorporated in at least one or more of either the design, the production process, or the materials being used to produce the check. **Custom checks must contain at least two additional overt security features in order for the padlock icon to be printed on the check.**

Uncompromised Custom Checks can be produced with a wide variety of customized security features and materials.

Security Options Include:

- Thermochromic Icons
- Artificial Watermarks
- True Fourdrinier Watermarks
- Security Backers
- Prismatic Pantographs

- Chemical Reactive Paper
- Copy or images printed in Invisible Fluorescent Ink
- Void Pantographs
- Security Inks
- Toner Anchorage

Custom Laser Checks
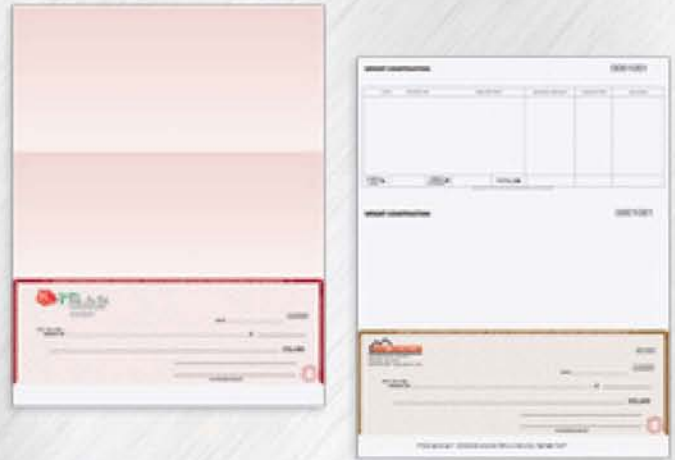

Long Run Blank Laser Checks (No MICR)
Available in quantities up to 20 million sheets
- 11" laser checks available in up to 5 spot colors
- 14" laser checks available in up to 6 spot colors

Short to Long Run Laser Checks (MICR Encoded)
Available in quantities up to 20 million sheets
- 11" laser checks available in up to 5 spot colors
- 14" laser checks available in up to 6 spot colors

Custom Continuous Checks

### *Short to Long Run Continuous Checks*
Available in quantities up to 20 million sheets
- 14" (includes all checks whose depth dimension is a variable of 14")
- 14" continuous checks available in up to 5 spot colors

- 17" (includes all checks whose depth dimension is a variable of 17")
- 17" continuous checks available in up to 5 spot colors

- 22" (includes all checks whose depth dimension is a variable of 22")
- 22" continuous checks available in up to 8 spot colors

- 24" (includes all checks whose depth dimension is a variable of 24")
- 24" continuous checks available in up to 4 spot colors

Custom Unit Set Checks

Short to Long Run Unit Set Checks
Available in quantities up to 20 million sheets
- 14" (includes all checks whose depth dimension is a variable of 14")
